Hapag-Lloyd e-Business Solution
Web Booking at a Glance

Web Booking – your guided Booking Request

Hapag-Lloyd offers a Booking Solution based on a wizard-system. The tool guides you easily through the booking process: From Contract / Quotation data via the Routing including Schedule, Cargo, Equipment and finally to a Review Screen. It includes e.g. a "Schedule look-up" and a "Template Feature" as well as an Overview Screen of all your bookings and templates. The application is directly connected to the Hapag-Lloyd system.

Your Benefits:

- No investment costs – service is free of charge
- Easy handling through wizard navigation
- Less typing - data prefilled based on Hapag-Lloyd quotation number
- Re-use data through "copy booking" and "template function" for repetitive cargo and frequent routes
- Option to use Draft-function: „start now – complete later"
- Data Verification prior to submission supports higher data quality which leads to faster Booking Confirmation
- Instant Booking Number upon submission of your booking request
- Independent from HL office hours: 24/7 availability of our Online Business
- Complete transparency of all Bookings status throughout your organisation with the online Booking List

Please have a closer look on the application in the Quick Start Guide.

Interested?
